## PMP CERTIFICATION BOOT CAMP

**Length:** 5 Days

**Prerequisites:** To become a PMP, a student must have – **(a)** Educational Background - High school diploma or equivalent; **(b)** Applicants with high School diploma are required to have 7500 hours in a position of responsibility leading and directing project tasks or Applicants who hold a baccalaureate degree or equivalent are only required to have 4500 hrs in a position of responsibility leading and directing project tasks; **(c)** Project Management Education - 35 hours of classroom training. Learnsoft's PMP class meets this requirement.

**Overview:** In this course, students will apply the generally recognized practices of project management acknowledged by the Project Management Institute (PMI®) to successfully manage projects.

**Who Should Attend:** This course is designed for persons who have on the job experience performing project management tasks, whether or not project manager is their formal job role, who are not certified project management professionals, and who might or might not have received formal project management training. The course is appropriate for these persons if they wish to develop professionally, increase their project management skills, apply a formalized and standards-based approach to project management, seek career advancement by moving into a formal Project Manager job role, as well as to apply for Project Management Institute, Inc. (PMI®) Project Management Professional (PMP®) Certification.

### At Course Completion:
