OSHA 10 HOUR FOR CONSTRUCTION

COURSE DESCRIPTION:

The OSHA 10-hour Training Course is designed to provide construction contractors, their supervisors and workers with authoritative knowledge on safety and health issues in the construction industry. It offers an educational overview of the ten most common areas of concern all the issues related to the construction industry. The instructors for this course will include safety professionals whom work for AGC member companies.

The 10-hour class is intended to provide workers with awareness of common job-related safety and health hazards, while the 30-hour class is more appropriate for supervisors or workers with some safety responsibility. Through this training, OSHA helps to ensure that workers are more knowledgeable about workplace hazards and their rights, and contribute to our nation's productivity.

Upon successful completion of this OSHA course, you will receive your 10-Hour Construction Hazard Recognition wallet card and completion certificate.

LEARNING OBJECTIVES / OUTCOMES:

- The class covers key construction safety and occupational health objectives for entry level workers
- The course emphasizes topics such as hazard identification, avoidance, control and prevention, electrical standards, fall protection, trenching and excavation, scaffolding, tools and personal protective equipment.
