TRAFFIC CONTROL SUPERVISORS (TCS)
Advanced Training in the Principles of Temporary Work Zone Traffic Control

COURSE DESCRIPTION: The TCS course is designed to train those who will be actively involved in designing or setting up and maintaining temporary traffic control in a work zone. It moves from the concepts and techniques taught in the TCT course to the implementation of traffic control plans and techniques for installation and removal. Students are taught how to read and interpret plans and specifications and implement them in the field. Workshops included in the course are designed to provide real world examples in designing temporary traffic control setups and also recognizing, analyzing and correcting deficiencies. An additional, vital objective of this course is teaching students the skills necessary to become an effective supervisor, capable of leading a team in the field. Students are required to complete a 50 question 1st day quiz and a 15 question 2nd day quiz. The correct answers for each question will be reviewed in the class.

LEARNING OBJECTIVES:
